Hello,

I recently found a video on youtube advertising your system and proceeded to your website to find a doctor's office that employs your system and it only gave me the option to contact you directly.

So, if there is any way that you can determine if a doctor near where I live carries this, I'd appreciate having that information.

My name is Sean and I would like to learn a little more, as I need help with my spine that chiropractic care has not seem to suffice.

Thank you very much.

Hi, I am a football player in college. I have been diagnosed with 3 bulging and 3 herniated discs that are giving me sever sciatica. Over the years of playing football I acquired all 6 of them, but the latest one is the first time I have had the sciatica. **Oahu, Hawaii**

First, i would like to say that even looking at this machine gives me a great sense of relief that at least there IS in fact a way to get rid of this pain in my lower back. I am stationed in Hawaii and am wondering if these services reach this far. I hurt my back around 2 years ago and the doctors keep telling me they see nothing wrong with any x-rays i have had taken. I am also wondering if there is a charge for maybe a referral to one of these machines available, if in fact there are any on the island of Oahu. PLEASE contact me at either number or e-mail i have provided. Thank you so much in advance.
